COMMUNITY PROGRAMS and PROJECTS:

- Set up community meeting room - Calendar activities and events
- Mentorship and motivational speaking workshops and seminars
 - California City Basketball, Inc. defines mentoring as an individual, personal relationship that is characterized by relevant and focused involvement conducted over a prolonged period of time between a youth and a qualified volunteer youth staff member. The volunteer youth staff member provides consistent support, guidance and target activities as the youth grows and matures. Within the framework of this growth and maturity, it is anticipated that the youth will experience difficult and challenging situations that require mentoring. The mentor's goal is to help their respective mentee develop skills and confidence to be responsible for their choices. Emphasis is placed on improved academic skills, career development and social/emotional development.
 - Mentoring will be a significant part of what California City, Inc. does as an organization. We look forward to our mentoring program as it helps in addressing some of the social, emotional and cultural needs of youth children ages 6-17. Volunteer youth staff will be trained and certified to become mentors, advocates, and role models for the youth in our program. Through organized one-on-one and group mentoring efforts, our volunteer youth staff will forge relationships that positively impact our greatest resource, our youth. The mentoring will focus on building essential skills needed to become productive, contributing citizens.
 - Positive Self Identity and Personal Vision
 - Life Skills
 - Social and Emotional Skills
 - Moral Character
 - Work Ethic
 - Lifelong Learning
 - Mentoring
 - Group Mentoring
